1. Introduction

The Parameters section of the HyMix Pro application allows the user to manage the software. By clicking on costs, the user will be able to import and export the costs, which were saved in the database, and modify them to import again on other computers where the HyMix Pro has been installed. Moreover, the costs section, allows the user to input his own costs in CSV (Comma-Separated Values) format.

2. Pre-requisites:

No prerequisites are required to perform a simple Import/Export in the .CSV format.

Nonetheless, to modify the costs or import his own costs the user must have basic knowledge in Microsoft Excel (Or any other alternative: Google Drive, Google Sheets, Apache OpenOffice, Zoho Sheet, Excel Online, LibreOffice....).

3. Step by Step details

a. Import Costs

i. Create a CSV file

ii. The CSV file should have the following format:

- Columns: Product code, Price Per Liter, Price Per Quart
- No headers are allowed
- The data should not be placed between quotation marks
- To enter the price per liters only OR per quarts, the columns not used should be emptied and not deleted
- Every product should be entered on a new line

P.S: The application will automatically recalculate the missing price afterwards.

	Product Code	Price Per Liter	Price Per Quart		
F13	A	B	C	D	E
1	W742	15			
2	W722	14			
3	W001	12			
4	W002	21			
5	W703	13			
6	W723	11			

iii. Save the CSV File

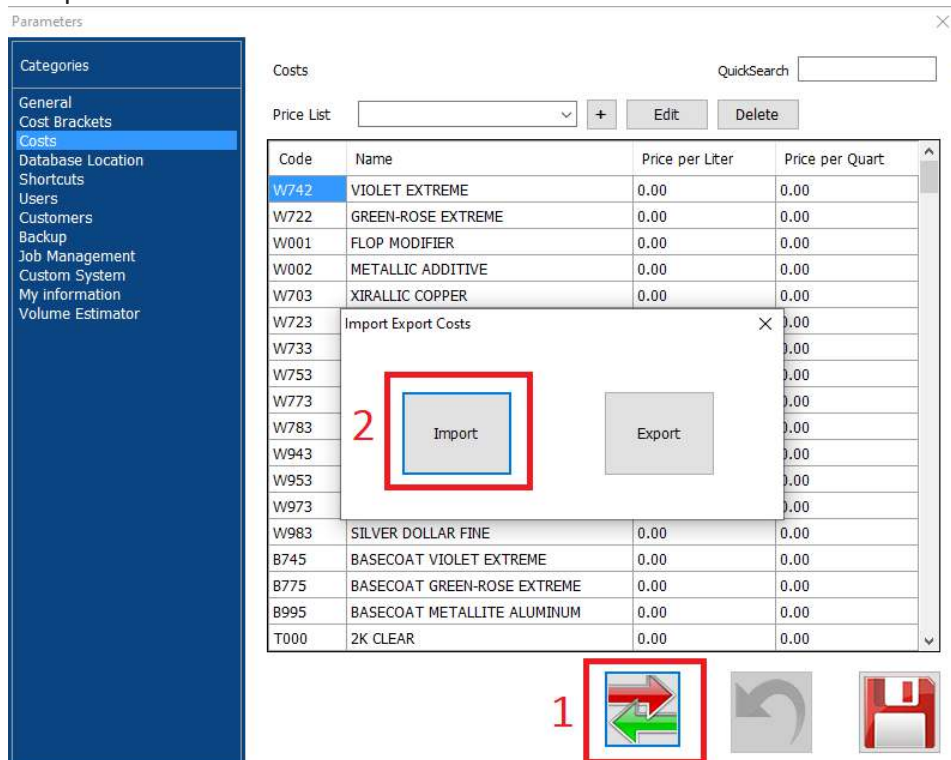

iv. Access the parameters section in the HyMix application

- v. Click on costs section in the Menu:

- vi. Click on the Import/Export button, a window will popup asking the user to either Import or Export the Costs

- vii. Click on Import to import costs.
- viii. Find the CSV created previously and click Open

Important Notes:

- Operation might take up to 10 minutes on slow computers
- You must close the CSV file before start importing the costs

ix. Costs have been imported successfully

b. Export Costs

- Access the parameters section in the HyMix application
- In Costs category, click on Import/Export button, then choose Export
