

# P500 – Texturizing Agent

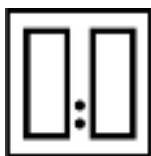

## **Product Description**

Coarse particle size grades of micronized polypropylene for adding texture, structure and non-slip properties to a wide variety of paints and coatings.

## **Features & Benefits:**

- Provides a consistent medium textured coatings surface.
- Tough, high molecular weight polypropylene gives good film durability.
- Easy to disperse powder that can be incorporated with high-speed mixing.

## **Product Application**

3-10% on total formula weight

Wear suitable protection

## **Product Characteristics**

<b>Melting point:</b>	160 - 170 °C ( 320- 338 °C)
<b>Specific gravity:</b>	0.89 kg/cm <sup>3</sup>
<b>Maximum particle size (µm):</b>	149 (100 mesh)
<b>Mean particle size (µm):</b>	45.0-55.0
<b>SDS:</b>	Refer to the Safety Data Sheet
